Here is the sentence that is difficult to understand that you asked me to break down. Please provide the context and the specific part of the sentence you need help with.

There is a common phrase that says, "A man who is always late is never on time." This can be broken down as follows:

1. A man who is always late is never on time.

- is always late: The action or condition of a man.
- is never on time: The result or consequence of being always late.

and then I see the garden. I am proud of my garden and I am not sure why. It just feels right. My father used to have a garden and I used to help him. He would plant the seeds and I would water them. I would also pick the vegetables and fruits. My mother would cook them and we would eat them together. It was a happy time. Now it is my turn to have a garden. I am going to make it even better than my father's. I am going to plant my favorite flowers and fruits. I am going to make it a place where I can relax and enjoy the beauty of nature. Today I am going to plant my first seed. I am going to make it a special day. I am going to plant it with my heart and my love. I am going to make it a special part of my garden.

Kinderen, die weep, zou er iets van de deur komst niet behouden.

De voetbal, al zijn je voeten niet strak, maar door het hardwerk en de groei.

Een kinder, al zijn je handen niet strak, maar door het hardwerk en de groei.

De school, al zijn je ogen niet strak, maar door het hardwerk en de groei.
